Re: Alternative Sites for Hosting Future Organic Waste Programs

At its Regular Council Meeting held on July 5, 2021, Town of Essex Council discussed the Essex-Windsor Solid Waste Authority organic waste programs. Council noted its concerns as to the implications of having the organic waste program located in the town of Essex near residents who live in close proximity thereto. If the organic waste programs are hosted at the Town of Essex site on the property adjacent to the current landfill site there could be adverse effects on the Town of Essex and its residents including increased demand or drain on Town services such as water and hydro which could negatively effect the current and/or future needs of the municipality.

Council accordingly requested that the Essex-Windsor Solid Waste Authority give consideration to other alternative sites for the hosting of future organic waste programs. As a result of that review Council passed the following resolution:

R21-07-294

Moved by: Councillor Verbeek

Seconded By: Deputy Richard Meloche

That the Town send a letter to County Council and the Essex-Windsor Solid Waste Authority (EWSWA) asking them to consider other alternative sites and not the Town of Essex site (on the property adjacent to the current Landfill site) with respect to the selection of a site(s) for the hosting of future organic waste programs.

Carried

I trust you will find this satisfactory. If you have any questions or comments please feel free to contact the undersigned.

Yours truly,
